ABOUT THE COMPANY

Who We Are

Mohammad Al-Eidi & Sons Co. Ltd is a leading construction company in Jordan, delivering general building construction, water and sewage works and maintenance, electrical, mechanical and metal-structure works, and road construction.

Founded on an integrated quality philosophy that combines technical, financial and human resources, the company applies modern technology across the design and execution of every project to achieve the highest levels of customer satisfaction.

Registered

Ministry of Industry & Trade · No. 24709

Vision & Leadership

Vision

To execute our work with precision, professionalism and dedication while maintaining the trust of our clients — providing the best construction services with honesty, sincerity and integrity.

We rely on the highest-quality building materials, modern equipment and skilled technical teams to deliver projects that are strong, functional and built to last.

CHAIRMAN'S MESSAGE

"We are determined to excel in all areas of our business by adopting an integrated quality philosophy that combines technical, financial and human resources. We use the latest technology in the design and execution of our work — technically, financially and administratively — to achieve our goal: the highest levels of customer satisfaction."

Mousa Al-Eidi

Chief Executive Officer

SELECTED WORK

Our Projects

We take pride in delivering high-quality construction projects that meet the highest standards of excellence — spanning structural engineering, exterior facades and detailed interior finishes.

From reinforced basements to multi-story buildings, we integrate advanced electromechanical systems and premium materials — with precision, innovation and client satisfaction in every phase.
